

DSO-Vorlesung

Stand: 9.10.2017

WS 2017/18: 'Stem Cell Biology, Cancer Progression, Tumor Immunology, Cancer Diagnostics'

Date	Topics	Lecturers
17.10.2017	<i>Stem cells and pluripotency</i>	J. Adjaye (Stem Cell Research & Regenerative Medicine)
24.10.2017	<i>Control of proliferation and differentiation in the hematopoietic system</i>	R. Haas (Hematology, Oncology and Clin. Immunology)
7.11.2017	<i>Metastasis and dissemination</i>	N. Stoecklein (General Surgery)
14.11.2017	<i>Control of proliferation and differentiation in epithelia</i>	W. Schulz (Urology)
21.11.2017	<i>Tumor stem cells and clonal evolution</i>	H. Neubauer (Gynaecology)
28.11.2017	<i>Chemokines in tumor progression and metastasis</i>	B. Homey (Dermatology)
5.12.2017	<i>Tumor immunology</i>	R. Sorg (Transplantation Diagnostics and Cell Therapeutics)
12.12.2017	<i>Tumor histopathology</i>	I. Esposito (Pathology)
19.12.2017	<i>Antibody therapy</i>	A. Borkhardt (Pediatric Oncology)
9.1.2018	<i>Cancer biomarkers</i>	M. Rudelius (Pathology)
16.1.2018	<i>Cellular therapy</i>	M. Uhrberg (Transplantation Diagnostics and Cell Therapeutics)
30.1.2018	<i>Tumor imaging</i>	G. Antoch (Radiology)

Ort: Seminarraum 24, Geb. 23.12.01

Zeit: jeweils dienstags 16:30 - 17:30 Uhr

Anschließend: WiP-Seminar der DSO-Doktoranden/innen
