

#stressforschung/update2

Montag, 07. Mai 2018, 17:00-18:00 Uhr,
Studierenden Service Center (SSC) der HHU,
Gebäude 21.02, Raum 30

Fachliches Update zu aktuellen Themen der Stressforschung. Eine offene Veranstaltung mit Vortrag und Diskussion für Interessierte aus allen Fachbereichen.

#Using virtual reality to assess the effects of stress

PhD Bradley J. Wright
School of Psychology and Public Health,
La Trobe University Melbourne, Australia

[CV](#)

Bradley Wright has long-standing research experience in psychophysiology, with a special focus on experimental research approaches to study stress at work.

In this presentation he will demonstrate the utility of an innovative new tool for assessing the speed and accuracy of decision-making in simulated workplace environments.
