

Prof. Dr. med. Jürgen Schrader

Department of Molecular Cardiology, Heinrich-Heine-University Düsseldorf

Education and Training:

1963 - 1968	Study of Medicine at the Universities of Cologne, Munich and Freiburg. Graduation from Medical School in Freiburg, Germany
1967 - 1969	MD thesis, Department of Physiology, University of Freiburg, (supervisor: Prof. A. Fleckenstein)
1968 - 1970	Internship at the University Hospital Cologne, Germany

Academic Positions

1970 - 1971	Fulbright-Hays Scholar at the Department of Physiology, University of Virginia, Charlottesville/USA (supervisor: Dr. R.M. Berne)
1971 - 1974	Research Assistant at the Department of Physiology, University Aachen (RWTH), with Professor Dr. E. Gerlach
1974 - 1980	Research Assistant at the Department of Physiology, University of Munich, Germany
1978	Habilitation in Physiology, Munich
1980 - 1983	Associate Professor of Physiology, Department of Physiology, University of Munich, Germany
1983 - 2011	Professor and Head of the Department of Physiology, University of Dusseldorf, Germany
Since 2011	Research Professor and Head of the Department of Cardiovascular Cardiology

Selected Professional Research Duties

1990 - 1993	Head of the Search Committee for all Associate and Full Professorships in the Basic Sciences at the Charité, Humboldt-University, Berlin, Germany
1992 - present	Visiting Fellow at the Cardiovascular Research Center, University of Virginia, USA
1992 - 1993	President of the German Physiological Society
1994 - 1995	CEO of the start-up "Cardion AG"
1995 - 2001	Head of the Scientific Advisory Board of "Cardion AG"
1999 - 2000	President of the German Society of Cardiology
2003 - 2008	Vice-President for Research and Transfer of Technology at the Heinrich-Heine-University of Dusseldorf, Germany
2004 - 2008	Member of the DFG peer review panel on "Heart and Circulatory System"
2002 - 2012	Founding Chairman and Speaker of the Collaborative Research Centre (SFB 612) on "Molecular analysis of cardiovascular function and dysfunction"
2009 - present	Member of the scientific advisory board "Center of Cardiovascular Excellence", Oxford, Great Britain
