MOUNT HOOD 2018 DIABETES CHALLENGE
5 – 7 OCTOBER 2018
DÜSSELDORF, GERMANY
The Mount Hood Diabetes Challenge Network is dedicated to promote an exchange of ideas and information between those developing and using health economic diabetes simulation models. It has run a diabetes computer simulation modelling conference bi-annually since 1999. A major focus point of the conferences is the comparisons of health economic diabetes models both in terms of their structure and performance.

This year the conference will be hosted by researchers from the German Diabetes Center (Deutsches Diabetes-Zentrum, DDZ) based in Düsseldorf, Germany. A pre-conference workshop on “Diabetes simulation modelling through the looking glass” focusing on different aspects of diabetes simulation modelling will be held on the Friday.
