

WS '12/'13: 'Tumor Genetics, Carcinogenesis, Epigenetics'		
Date	Topic	Lecturer
10.10.2012	Mammakarzinom	K. Zwiefel <i>Frauenklinik</i>
17.10.2012	Hereditary cancers	B. Royer-Pokora <i>Institute for Human Genetics</i>
24.10.2012	Oncogenes of RNA- and DNA-viruses	H. Schaal <i>Inst. for Virology</i>
31.10.2012	Receptor tyrosine kinases in tumorigenesis	M. Kassack <i>Inst. for Pharmaceutical and Medical Chemistry</i>
7.11.2012	Myelodysplastisches Syndrom	U. Germing <i>Klinik f. Hämatologie & Onkologie</i>
14.11.2012	p53	R. Jänicke <i>Molecular Radiation Oncology</i>
21.11.2012	Function of tumor suppressor genes	W. Schulz <i>Dept. of Urology</i>
28.11.2012	Cancer cytogenetics	H. Rieder <i>Institute for Human Genetics</i>
9.1.2012	Kolorektalkarzinom	D. Graf <i>Klinik f. Gastroenterologie, Hepatologie & Infektiologie</i>
12.12.2012	Genotoxins, DNA repair and DNA damage response	G. Fritz <i>Institute for Toxicology</i>
19.12.2012	Environment and tumorigenesis	J. Krutmann <i>IUF</i>
9.1.2013	Genetic variability in response to carcinogens and drugs	J. Fischer <i>Institute for Pharmacology</i>
16.1.2013	Epigenetic mechanisms	W. Schulz <i>Dept. of Urology</i>
23.1.2013	Function of microRNAs in tumorigenesis	P. Landgraf <i>Dept. of Pediatric Oncology</i>
30.1.2013	Role of epigenetic modifications in tumorigenesis	G. Reifenberger <i>Inst. for Neuropathology</i>

Veranstaltungen in orange: Hörsaal 13B
 alle anderen Vorlesungen: Hörsaal des Instituts für Rechtsmedizin
 jeweils 16:30 - 17:30 Uhr
