

Düsseldorf School of Oncology

DSO-Ring-Vorlesung im Sommer - Semester 2013

„Stem Cell Biology, Tumor Immunology, Metastasis“

Date	Topic	Lecturer
17.04.2013	Tumor histopathology	S. Heikaus <i>Inst. of Pathology</i>
24.04.2013	No Lecture	No Lecture
08.05.2013	Control of proliferation and differentiation in the hematopoietic system	R. Haas <i>Dept. of Hematology, Oncology and Clin. Immunol.</i>
15.05.2013	Stem cells and pluripotency	J. Adjaye <i>Inst. of Stem Cell Research and Regenerative Medicine</i>
22.05.2013	Tumor stem cells and clonal evolution	M. Hoffmann <i>Dept. of Urology</i>
29.05.2013	Control of proliferation and differentiation in epithelia	W. Schulz <i>Dept. of Urology</i>
05.06.2013	Metastasis and dissemination	N. Stoecklein <i>Dept. of General Surgery</i>
12.06.2013	Angiogenesis and hypoxia in tumors	B. Homey <i>Dept. of Dermatology</i>
19.06.2013	Tumor immunology	R. Sorg <i>Inst. of Transplantation Diagnostics and Cell Therapeutics</i>
26.06.2013	Immunotherapy of cancer	A. Borkhardt <i>Dept. of Pediatric Oncology</i>
03.07.2013	Cancer diagnostics and biomarkers	G. Reifenberger <i>Inst. of Neuropathology</i>
10.07.2013	Principles of cancer therapy	S. Topp <i>Dept. of General Surgery</i>
